IP / BP / USP LABELLED PRODUCTS

manufactured in FDA-approved facility

IP/BP/USP-certified pharmaceutical raw materials are manufactured in an FDA-approved facility adhering to the highest global quality standards. The products are designed to meet the rigorous demands of pharmaceutical, nutraceutical, and cosmetic industries, ensuring unmatched purity, consistency, and compliance.

Product Range:

- | | |
|------------------------------|--------------------------|
| • ACETIC ACID | • LIQUID PARAFFIN |
| • AMMONIUM CHLORIDE | • MAGNESIUM SULPHATE |
| • BARIUM SULPHATE | • MENTHOL |
| • BENTONITE | • METHYL SALICYLATE |
| • BENZOIC ACID | • PHENOL |
| • BENZYL BENZOATE | • POTASSIUM CHLORIDE |
| • BORIC ACID | • POTASSIUM CITRATE |
| • CALAMINE | • POTASSIUM IODIDE |
| • CALCIUM GLUCONATE | • SALICYLIC ACID |
| • CASTOR OIL (Refined grade) | • SODIUM BENZOATE |
| • CITRIC ACID ANHYDROUS | • SODIUM BICARBONATE |
| • CITRIC ACID MONOHYDRATE | • SODIUM CHLORIDE |
| • DEXTROSE ANHYDROUS | • SODIUM CITRATE |
| • DEXTROSE MONOHYDRATE | • SODIUM LAURYL SULPHATE |
| • FERROUS SULPHATE | • SODIUM METABISULPHITE |
| • GLACIAL ACETIC ACID | • TALC |
| • GLYCERINE | • ZINC OXIDE |
| • LIGHT MAGNESIUM OXIDE | • ZINC SULPHATE |

Features:

1) Global Compliance

IP/BP/USP-certified for international regulatory acceptance.

2) FDA-Approved Facility

Manufactured under stringent GMP guidelines with robust quality control.

3) Batch Traceability

Comprehensive documentation, including CoA and stability data.
